DISCLOSURES FOR STATE-SPECIFIC EDUCATIONAL REQUIREMENTS FOR LICENSURE OR CREDENTIALING

Prior to enrolling in a program at Riverside College of Health Sciences (RCHS) leading to external licensure or certification, we recommend that a student contact the state board or agency of the program in the state they wish to practice for the most complete and up-to-date information pertaining to licensure and certification. In addition to educational requirements, an agency or board may require additional criteria be met for licensure. This table documents whether the RCHS programs meet the credentialing requirements for each state and territory. It also provides contact information for state licensing agency bodies.

Click **HERE** for additional contact information of state licensing agency bodies, by program type.
